## UNITED KINGDOM: Pro-link GLOBAL's Increase in UK Operations and Accompanying Role Changes

With the recent expansion of the process center in the United Kingdom, our office is now functioning as a co-ordination center for all EMEA cases and will manage the PLG|KGNM correspondent offices throughout the region. With our "Follow-the-Sun" case management process, it has become imperative to increase our operations in the UK so that we are better able to fulfill the needs of our clients with a more localized service.

With immediate effect, please note the following updated roles:

### OPERATIONS
